KNIFE CATALOG

3400 Set of knife

- Santoprene handle for comfort and safe grip, NSF certified
- High carbon forged steel from Soligen, Germany. Stain-resistant x50 Cr Mo V15 resists rust, corrosion, and discoloration. Full tang that runs the entire length of the handle for superior balance.
- Taper-ground edge allows for added stability, easy honing, long lasting sharpness, and increased efficiency when cutting and chopping
- Limited lifetime warranty
- Hand wash knives for blade edge and surface care

Gives you a knife that is sharp, rust resistant, easy to maintain, holds its edge retention and easy to re-sharpen.

Beautiful ABS handles are very durable and dense. Traditional Polymer handles are industrial strength.

The forged bolster gives the knife and steel balance and heft.

The fully exposed tang signifies that the set is made from one piece of steel.

• 3480 Series

Some people prefer lightweight and flexible knives, while others prefer to use heavy-duty large handled knives. However, perhaps most people would love such a nice knife, with simple lines that create a safe and comfortable grip, showcasing elegance and aesthetic everywhere.

Weld the 50Cr15MOV stainless steel blade to the #430 steel, the injection molding process uses white ABS plastic, and finally reinforce it with a decorative nail.
